

**16-Stop Spring Tension Adjustment**  
Incremental, positive tension adjustment for the individual's needs and playing style.

**A.R.S. Angle-rotating system**  
Unique patented system allows angle adjustment: from flat to 45° vertically and 360° rotation to get the playing angle for any player, any kit, any time.  
US Patent No. 6054645

**Rotating & Detachable Leg Assembly**  
Features legs that are fully adjustable for spread and angle, great for multi pedal setups. They are also easily detachable for use with double Bass Drum or on a rack system.

**Convertible Rubber/Spiked Tipped Leg**  
Quick and easy conversion of the foot from rubber to metal spike tip, for the best grip and slip-resistance on any floor surface.  
US Patent Pending

Deluxe Ergo Hat

**Dual Power Chain Drive & Height Angle Adjustment System**  
Fully adjustable chain assembly offers more speed, focus and definition from foot to pedal to hi-hats. Dual chain system gives balanced effort and feel across the whole range of movement.  
US Patent Pending

**Interchangeable Ergo Plates**  
Fine-tune your feet for maximum power, control and comfort.  
US Patent No. 6599518

**Heel Extension Plate**  
For improved stability and comfort while resting and playing heel-down.

**Removable VELCRO® Plate**  
Built-in stability on any surface.

**Double Bass Drum setups**  
Simple removal of legs allows easy and close attachment of hi-hat stand to second Bass Drum simple using an AC306 clamp.

**Aluminum Alloy Quick Release Base Board**  
High strength cast base board offers stability and security, while being easy to set up and tear down. Simply loosen the bolts on each side of the board and slide out to fold up the Ergo Hat for storage and transport.
