SKATING

is more than action, tricks, art, performance and entertainment. It's a **global culture** that connects people from all over the world. It has the core values of community, respect, support and the recognition of excellence. Sometimes it's an urban rebellion but is always aware of the sports evolution and **committed to respect the environment.**

The **ROCES skater community** deserves all our commitment, aimed at improving and supporting this sustainable development.

SO, WHAT ARE WE DOING?

Le patinage

est plus que de l'action, des figures, de l'art, de la performance et du divertissement. C'est une culture mondiale qui relie des personnes du monde entier et comprend des valeurs telles que le respect, l'union, le soutien et la reconnaissance de l'excellence.

Parfois, il s'agit d'une rébellion urbaine, mais toujours consciente de l'évolution du sport et engagée à respecter l'environnement.

La **communauté de patineurs Rocés** mérite tout notre engagement pour améliorer et soutenir ce développement durable.

ALORS QUE FAISONS NOUS?

Skater: Martin Danning

2020

GREEN CORE COLLECTION

A speed change.

We have always been driven by a constant attention to the choice of materials and our sensitivity to environmental impact. Now more than ever this is engine that drives our strategy: combining innovation with eco-sustainability, without sacrificing design and high performance.

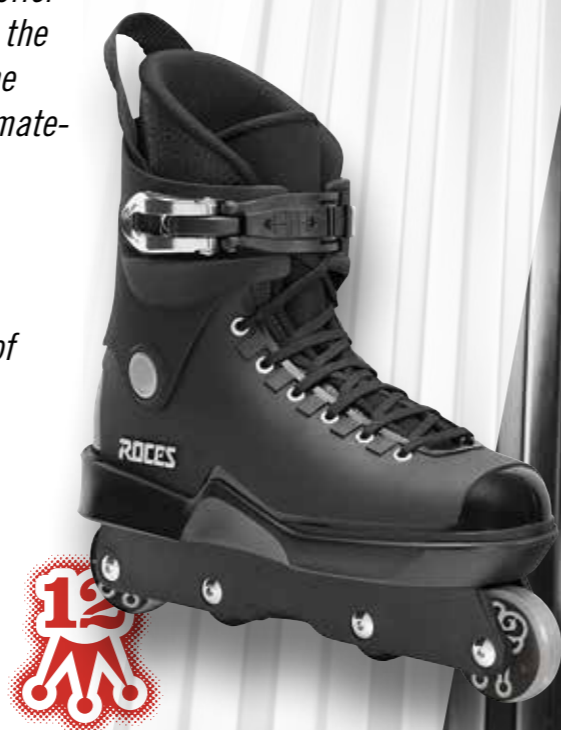

The issue about plastic, once the embodiment of modernity, innovation, safety and design, involves packaging and product life cycle, which are our strengths. In fact, when Roces invented the extendable skate in 1994 or the extendable ski boot in 2006, it had in mind a longer life cycle and a lower environmental impact. Just think of all customers, who with the longer life span of their skates, only occasionally needing to replace some parts, and of the reduction of carton packaging

Ranked by Nature.

With this catalogue we aim to offer a clear idea of two parameters: the level of recyclability of our in-line skates and the level of recycled materials used to build each model.

In the history of Roces there are fundamental skates that represent our green mission. This is the case of M12 in the classic black colour, which has always been made with 97% recycled plastic materials.

Un changement de vitesse.
Nous avons toujours été motivés par une attention constante portée au choix des matériaux et notre sensibilité à l'impact sur l'environnement est plus que jamais le moteur de notre stratégie : allier innovation et éco-durabilité, sans sacrifier la conception et la performance.

La question du plastique, une fois synonyme de modernité, d'innovation, de sécurité et de design, concerne l'emballage et le cycle de vie du produit : nos points forts. En fait, lorsque Roces a inventé le patin réglable en 1994 ou la chaussure de ski réglable en 2006, son cycle de vie était plus long et son impact environnemental réduit, il suffit de penser à nos emballages en carton et à tous nos clients qui remettent aux pieds tous les jours, des patins de vingt ans n'ayant besoin que d'entretien et de pièces de rechange.

Ranked by nature.
Avec ce catalogue, nous entendons donner une idée précise de deux paramètres : le niveau de recyclabilité de nos patins en ligne et le niveau des matériaux recyclés utilisés pour fabriquer chaque modèle. L'histoire de Roces est caractérisée par des patins fondamentaux qui incarnent notre mission écologique : c'est le cas du M12 de couleur noire classique, qui a toujours été composé à 97% de matières plastiques recyclées.

Un court documentaire de Kaspars Alksnis.
"Chaque nouvelle journée commence par un pas... Et chaque journée se termine par nos empreintes de pas."
De Bangkok à travers les jungles luxuriantes thaïlandaises jusqu'aux plages du sud de Krabi.
Avec «Mind your step», Nils Jansons, une icône de la scène internationale agressive, nous guide tout au long de son voyage en Thaïlande afin de vivre et de promouvoir une approche consciente de la nature. Sensibilité, attention et engagement éthique sont la base du projet soutenu par Nils, un projet qui nous encourage à faire des choix durables pour notre planète et pour l'avenir.
Faites la différence... Attention à la marche!

Short-film documentary by Kaspars Alksnis

"Every new day starts with one step... And every day ends with our footprints."
From Bangkok through the lush Thai jungles to the southern beaches of Krabi. With "Mind your Step" Nils Jansons, an icon of the aggressive international scene, guides us along his journey to Thailand. To live and promote a conscious approach with nature. Sensitivity, attention and ethical commitment are the basis of this project that Nils supports. A project that encourages us to make sustainable choices for our planet and for the future.
Make the difference... Mind your step!

HOLOGRAM

Our hologram: the Roces ID.

Our New hologram is a new identification element and tool in the fights against counterfeiting.

Starting with the next production, Roces products will travel in company of an "Original Product" hologram that attests their authenticity. In a dedicated area of our roces.com website it will be possible to verify the authenticity of the products purchased by entering the serial number shown in the hologram.

L'hologramme est un nouvel élément d'identification et un outil de lutte contre la contrefaçon. À partir des prochaines productions, les produits Roces voyageront accompagnés d'un hologramme "Produit original" attestant de leur authenticité. A travers une zone dédiée du site internet roces.com, il sera possible de vérifier l'authenticité du produit acheté en entrant le numéro de série indiqué dans l'hologramme.

FIFTH ELEMENT UFS

By popular demand, but also our own long-time desire: the re-launch of FIFTH ELEMENT, an aggressive world icon and, according to the fan community, the best skate ever designed.

In a future skating museum, Roces aggressive models would occupy a prominent place. The list of names brings goose bumps to all fans: MOSCOW RAMP, LOWRIDER, STREET, IMPALA, M12, FIFTH ELEMENT, KHUTI, GRAAL, are all main players of a market worthy of collectors. To celebrate the twentieth anniversary of FIFTH ELEMENT, we relaunch it in the original colours with UFS. Enjoy it!

À la demande générale, mais aussi à notre ancien souhait : relancer le FIFTH ELEMENT, une icône mondiale agressive et, selon la communauté des fans, le meilleur skate jamais conçu. Dans un futur musée du patin, les modèles agressifs de Roces occuperont une place de choix. Seule la liste des noms donne la chair de poule à tous les fans: MOSCOW RAMP, LOWRIDER, STREET, IMPALA, M12, CINQUIÈME ÉLÉMENT, KHUTI, GRAAL, protagonistes d'un marché digne des collectionneurs. Pour fêter le vingtième anniversaire du FIFTH ELEMENT, le voici dans les couleurs d'origine avec UFS. Maintenant profitez-en!

Bimaterial. Soft PU. Hard PU.

A historic skate and the best model ever designed.

Now all the passionate fans of the aggressive world will rediscover the benefits of this timeless Roces model. Twenty years ago, in a revolutionary concept for that time, double injection technology was first used in this skate.

Un patin historique et le meilleur modèle jamais conçu.

Désormais, tous les passionnés du monde agressif vont redécouvrir les avantages du modèle intemporel de Rocés auquel la technologie de la double injection a été appliquée il y a vingt ans, de manière révolutionnaire.
